#### **PROFESSIONAL EXPERIENCE**

Fiserv, Inc. May 2022 - Present

## **Software Development Engineer**

- Modernize and develop DNA, Fiserv's core banking platform, leveraging Angular 17+ and agile methodologies.
- Collaborate with cross-functional teams to seamlessly integrate front-end user interfaces with back-end service layers.
- Diagnose and resolve performance issues across the software development lifecycle, ensuring robust and high-performing solutions.
- Deliver timely bug fixes and implement new features to meet stakeholder requirements while ensuring flexibility, scalability, and code maintainability.

Talent Path July 2021 - April 2022

## **Full Stack Engineer, Data Engineer**

- Completed an eleven-week full-stack program, working with technologies such as Angular, Node.js, Express.js, and PostgreSQL, building end-to-end solutions for web applications.
- Developed a finance web application prototype, applying TypeScript, Angular, Node.js, Material-UI, PostgreSQL and Express.js.
- Gained hands-on experience with AWS components (Redshift, RDS, Lambda, etc.), contributing to a strong foundation in cloud services and large application systems.

# **TECHNICAL SKILLS**

Programming Languages: TypeScript | JavaScript | HTML | CSS | Sass | Java | SQL | Python
Libraries and Frameworks: Angular | React.js | Express.js | RxJS | Node.js | Spring Boot
Tools and Platforms: GitHub | Chrome DevTools | Jira | Visual Studio Code | Team Foundational Server | Postman | Confluence | Oracle SQL Developer | Amazon Web Services | Microsoft Azure | Docker

# **PROJECTS**

### **Finance Angular Web Application**

Developed a prototype finance web application as part of a capstone project, utilizing the front-end web application framework, Angular, and the back-end JavaScript runtime environment, Node.js.

## **Itinerary React.js Web Application**

Built a travel itinerary web application using the MERN stack (MongoDB, Express.js, React.js, Node.js), with the backend hosted on Netlify and the frontend on GitHub Pages.

## **EDUCATION**

# Bachelor of Science (BS) in Computer Science

2021

University of Texas at Arlington, TX
